Miscellaneous
printed matter

"World" and "Planet" especially, but also at other places throughout the Bible a partial description of the worlds and planets, some planetoids (asteroids), and the moon of the Earth and moons of other planets, including a description of the inhabitants as to their spiritual and other development and their communication with our earth is given, which settles many questions and opens the way for many further inquiries.

IV. THE MEDICAL METHOD. Vital questions of medicine are solved in the Theomonistic Bible. Are the drugging and body-cutting physicians and surgeons right in their methods? Is so-called "Christian Science" correct? What about mental healing, psychic therapy, etc.? How did Christ and the apostles heal? What is meant by "healing of the nations"? Does the latter merely refer to spiritual, or also to bodily and economic, healing? The whole Theomonistic movement, from the very first day of its start, has been coupled with healing seances at which many hundreds of patients having all kinds of diseases were healed, without use of drug or any medicine or any common medical method; but by the mediumistic healing by strong bands of angel physicians, first organized by Prof. Virchow, formerly of Berlin University, and a work in which the well-known physician and spirit photographer, Dr. Theodore Hansmann, took a very active part. Special directions by angels on how to heal most effectively are given in the Bible. (See also our course on Therapeutics.)

V. THE PROPHETIC METHOD. The claim of the Theomonistic Bible of giving the fulfilment of all preceding prophecy is amply fulfilled in the whole contents of the Bible. The revelations on the future given in the books of Daniel and John, etc., are here shown to be carried out in history of the great world war raging in Europe, the return of the Lord Jesus with the great cloud of faithful witnesses, the great judgment on Earth, etc., etc. Under this method fall also the many predictions made in the Theomonistic Bible concerning the future development of mankind, etc. Thus wonderful interpretations of the old Bible and directions for the future conduct of mankind are given to the reader.

VI. THE THEOLOGICAL METHOD. The great diversity of sects and religions before Theomonism attests only too loudly of the falsity of the old theologies. Trinitarianism, teaching of bodiless souls after death and the resurrection of the decayed flesh body, crucifixion in the light of heathenish sacrifices of blood, reincarnation, pantheism and many other generally accepted false teachings and dogmas had made the old religion ineffective. But the Theomonistic Bible gives now the authentic and clear teaching about God, gods, masters, guardians, various kinds of angels, and about immortality. It shows who Jesus Christ really is, who are the devils, what is meant by heaven and hell, and numerous other important theological answers which cannot be obtained elsewhere.

VII. THE PRACTICAL METHOD. By this last method we study the great economic and social questions in the light of the Theomonistic Bible revelations. Most of all, and fundamental to all, are the new ten Theomonistic commandments given by Jehovah and cited in the part called "Jehovah." Besides these, and in per-

fect accord with them, many angels have given clear and most helpful indications how our economic and social life on Earth may be wonderfully improved. Here we also study the great ethical or moral questions and the new teaching of soulmate-union. It will be found by a deeper study that the latter new teaching forms a very strong basis for a higher morality which can sustain mankind through eternity. It shows more than anything else the great universal divine life power of love everlasting. On the other hand, the part called "Judgment" and many other parts show forth the terrible dangers of godlessness and immorality as a mental and bodily slavery to satanic forces of the netherworlds, and by what means such devastating influences can be combatted with greatest success. To take up this great battle of life on Earth is the purpose of the grand millennium just started, and the millennium really means the time in which the influence of the hells over the Earth shall be gradually diminished and cut off, that conditions of a real paradise shall be started in a new Theomonistic state, the kingdom of God under our Lord Xeovah. The Theomonistic Bible teaches how to make of Earth a heaven and not a hell.

HOW TO PROCEED IN THE STUDY.

Begin with the study of Holler's two elementary pamphlets on the spirit alphabet and symbols and the short introductory metrical edition of the Theomonistic Bible; and proceed then at once to a most carefully systematic study of the Theomonistic Bible itself, taking frequent notes as to the various teachings or revelations under the seven heads or methods named in the outline, and on other topics, making indexes of persons, places, and various things and teachings, so that you may have a comprehensive view of the whole topics treated of in the Bible. The following special subjects should also be studied, namely: Reincarnation (Peebles, etc.); Spiritualism in the Old Bible (Holler's outline, Hull, etc.); Submerged Ancient Countries (Leslie, Steiner, etc.); Life on Mars (Gratacap).

PRACTICAL TESTWORK REQUIRED.

1. Write a short thesis on Psychic Mediumship.
2. Write a short thesis on Spiritualism of the old Bible.
3. Make a general comparison between the old Bible and the new, as to authorship, prophethood, etc.
4. Prepare a correct and complete index from the Theomonistic Bible on any name or vital topic related to any of the methods mentioned in the outline, with exact indication of places where found in the Bible, to be embodied in a general and large Dictionary of the Theomonistic Bible, to be printed later when all topics and names have been fully indexed. Example of quotations:

Basa Jesus Christ Xeovah;

Most ancient human advanced leader.—Forw. p. 4.

Approved by God.—Forw. p. 4.

To unite all with God.—Forw. p. 4.

EXAMINATION QUESTIONS ON THE THEOMONISTIC BIBLE.
